.....start to finish

Application

Before use, shake the aerosol for 2 minutes and spray a sample area. Drying time depends on ambient temperature, humidity of air and thickness of coating applied

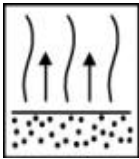

After use turn aerosol upside down, pressing the nozzle for approx. 5 seconds, and clear valve.

Apply in cross coats from distance of 250mm from object.

Pot life: approx. 24 hours.

Product Properties

Allow 3 - 5 minutes between coats

Infrared compatible

Overcoatable after 15-30 minutes.

Sandable with P400-P500
